

NAMING OPPORTUNITIES FOR UNCOMMON GOOD'S WHOLE EARTH BUILDING

Item	Cost
Architect Nader Khalili memorial plaque	\$1,000
Pay tribute to the internationally renowned environmental architect, Nader Khalili, who popularized in modern times the concept of earthbag building, and from whom we obtained the original plans for our building. A plaque would read "Memorial Plaque donated by/or in honor of (Your Name)"	
Great Gathering Room Tongva photo mural	\$3,000
Photo mural entitled "Journey to the Place Below Snowy Mountain" by the internationally renowned artist, Sheila Pinkel, records the landscape, flora, fauna, cosmology and symbols of the Tongva people, the first inhabitants of the land on which our building is sited. It will be the featured art work in our building's main room. A plaque would read "Made possible by a generous donation from/or in honor of (Your Name)"	
Oak Woodland	\$4,000
This section of the landscape will feature stately native oaks, which were a primary source of nourishment for the Tongva people, the original inhabitants of the building site. Each Tongva family traditionally had their own oak that the members tended. A plaque situated in the woodland would read "The (Your Name) Oak Woodland" or an inscription of your choosing, subject to the approval of Uncommon Good.	
Gleaning Kitchen	\$5,000
The Gleaning Kitchen will make it possible for us to store and to distribute the fresh produce from our farms to low-income families who cannot afford to buy fresh fruits and vegetables. A plaque on the kitchen door would read "The (Your Name) Gleaning Kitchen"	
Electric vehicle charging station	\$6,000
A plaque on the station would read "Electric Vehicle Charging Station made possible by a generous grant from/or in honor of (Your Name)"	
Great Gathering Room bench	\$6,000
There will be three earthen benches in the Great Gathering Room for guests. A plaque on each bench will read "In honor of (Your Name)" or an inscription of your choice, subject to approval by Uncommon Good.	
Rooftop garden	\$10,000
This first of its kind green roof will be composed of various native plant communities. A plaque placed in the landscape in front of the building will read "The (Your Name) Rooftop Garden" or an inscription of your choosing subject to the approval of Uncommon Good.	
Meditation garden	\$10,000
This native plant garden will be located at the headwaters of the seasonal creek, located on the property of the Claremont School of Theology adjacent to the building. A plaque in the garden would read "The (Your Name) Meditation Garden" or an inscription of your choice, subject to the approval of Uncommon Good.	
Seasonal creek	\$10,000
This landscaped seasonal creek will catch rainwater runoff and return it to the groundwater. It also will provide habitat for birds and animals. A plaque located by the creek near the front of the building would read "The (Your Name) Creek" or an inscription of your choice, subject to the approval of Uncommon Good.	

Family Meeting Room**\$10,000**

This comfortable and attractively furnished room will be where families who come to Uncommon Good for services will be interviewed and assisted. A plaque on the door would read "The (Your Name) Family Meeting Room."

Connect to College Room**\$10,000**

This room will be where the educational activities of the Connect to College Mentoring Program take place. This program helps underprivileged children and youth succeed in school and go to college, breaking the intergenerational cycle of poverty. A plaque on the door would read "The (Your Name) Connect to College Room."

Urban Farming Room**\$10,000**

This room will be the headquarters of Uncommon Good's Pomona Valley Urban Agriculture Initiative which is establishing urban farms throughout the region. A plaque on the door would read "The (Your Name) Urban Farming Room."

Community Health Room**\$10,000**

This room will be where the activities of the Medical Education Debt Relief (MED Relief) program take place. This program supports young doctors, dentists, pharmacists and optometrists who serve the poor. A plaque on the door would read "The (Your Name) Community Health Room."

Great Gathering Room**\$15,000**

This is the largest and most public room in the building. It is the first room encountered upon entry. It will be decorated with the Tongva photo mural and photo tiles of Tongva artifacts, as well as flora and fauna of the region. Solstice and equinox markers will be displayed that will track the movement of the seasons through the flow of light in the room. Public meetings, educational events and Tongva gatherings will take place here. A plaque in the room would read "The (Your Name) Great Gathering Room."

Documentary Film**\$20,000**

This documentary would feature interviews with Tongva Native American elders, the descendants of the first people who settled on the building site 7,000 years ago and who cared for the land sustainably for thousands of years. They would speak about their culture and their native plant knowledge which has informed the development of the building's landscape plan. Representatives of their children's and grandchildren's generation also would be interviewed to show how Tongva culture and values are being kept alive. The documentary would be shown as part of the building's Grand Opening ceremony and thereafter as an educational tool. The documentary credits would state "Produced by a generous grant from (Your Name)."

Solar Array**\$30,000**

The photovoltaic panels have powered the construction of the building and will be the sole source of power for the building. They produce sufficient power for Uncommon Good to be able to share some with the Claremont United Methodist Church, upon whose land the building is being constructed. A plaque attached to the photo voltaic array would read "This photovoltaic system has been made possible by a generous donation from (Your Name)."

Building Name**\$75,000**

This building will be the first Whole Earth Building in the world. It is called a Whole Earth Building (WEB) because in its construction and operation the entire ecosystem has been taken into account, including soil, water, air quality, energy, plants, insects, birds, animals and human beings. It has generated worldwide interest even in the construction phase. A monument sign in front of the building would read "The (Your Name) Whole Earth Building."

For more information, please contact Nancy Mintie, Executive Director, Uncommon Good, (909) 625-2248. Visit our website at www.uncommongood.org to see up-to-date photos of this unique building.
